

```
CREATE TABLE workers (sno int(2),name varchar(25),designation varchar(50),branch  
varchar(25));
```

```
INSERT INTO `workers`(`sno`, `name`, `designation`, `branch`) VALUES  
('1','martin','manager','chennai'),('2','sopna','supervisor','madurai'),('3','hunter','assistant','trichy');
```

```
ALTER TABLE workers ADD COLUMN (salary int(30));
```

```
DELETE FROM workers WHERE sno=2;
```

The screenshot shows the phpMyAdmin web interface. The left sidebar displays the database structure with 'dbms' selected, containing tables like 'bank', 'book', 'persons', 'student', and 'workers'. The main panel shows the 'workers' table with a message: 'Current selection does not contain a unique column. Grid edit, checkbox, Edit, Copy and Delete features are not available.' Below this, a query result is displayed: 'Showing rows 0 - 2 (3 total, Query took 0.0004 seconds)'. The SQL query shown is 'SELECT \* FROM `workers` WHERE 1;'. The table data is as follows:

sno	name	designation	branch
1	martin	manager	chennai
2	sopna	supervisor	madurai
3	hunter	assistant	trichy

Below the table, there are options to 'Show all', 'Number of rows: 25', and a 'Filter rows' search box. At the bottom, the 'Query results operations' section includes links for 'Print', 'Copy to clipboard', 'Export', 'Display chart', and 'Create view'.
